App Store | Play Console

WORK EXPERIENCE

1 MAY 2023 – CURRENT Rome, Italy

Full Stack Developer Mebius Srl

Main activities and responsibilities:

- Engaging in client meetings to comprehend requests pertaining to additional features for incorporation into existing dynamic web pages. Formulating strategies to accomplish tasks well ahead of deadlines.
- Supporting the integration of open-source and third-party applications into current systems while upholding quality assurance benchmarks.
- Creating, coding, and upkeeping dynamic websites and web applications catering to diverse clients, including corporations, e-commerce ventures, and educational establishments.
- Collaborating with the development team to craft compact code modules, subsequently debugging and executing them to yield desired outcomes.
- Addressing issues, conducting tests, and maintaining web applications and databases to ensure robust optimization and seamless functionality.
- Crafting tailor-made modules for various Customer Relationship Management (CRM) systems and contributing to the creation of customized web programs using PHP frameworks in accordance with specified requirements.
- Assisting in the preparation of technical documentation throughout the entirety of the product development life cycle. Generating accurate reports for submission to the project manager.
